PRAYER AND INTERCESSION

The power of prayer and intercession cannot be underestimated, and the need for it is great, yet prayer still seems to be one of the most misunderstood and most underutilised weapons in our spiritual arsenal today. As a result, this event has been designed to provide a fresh perspective and deeper insight into the importance of prayer and intercession in advancing the Kingdom of God, how to pray effectively, breaking through spiritual resistance, and what to do when God seems silent and prayer seems to go unanswered.
